**ENVIRONMENTAL  
PROTECTION AGENCY'S  
WESTERN ECOLOGY DIVISION  
RESEARCH LAB IN CORVALLIS**  
**ENVIRONMENTAL SCIENCE  
OF NATIONAL IMPORTANCE**

**DR. ALAN THORNHILL**  
**DIRECTOR, EPA WESTERN ECOLOGY DIVISION**

Dr. Thornhill is an ecologist and evolutionary biologist with over two decades of experience in academic research and teaching as well as developing and coordinating both Federal and non-governmental environmental science programs. He is currently the Director of the U.S. Environmental Protection Agency's Western Ecology Division here in Corvallis where he oversees the research and predictive modeling efforts that link environmental condition to the health and well-being of the people and society.
