

Undergraduate Teaching Internship Biology 21X

Interested in becoming an **Undergraduate Teaching Intern** for Biology 211, 212 or 213?

- Receive two hours credit
- Great addition to your resume
- Good review for graduate school entrance exams
- And you gain teaching experience!

To earn two credits for Biology 405, undergraduate teaching interns are required to do the following:

- 1) Participate in the weekly staff meeting for Biology 21x TAs on Mondays at 8 am., lasting one to two hours. At this time the teaching assistants and the course coordinator will evaluate the past week ' s lab and prepare for the current week ' s lab.
- 2) Assist in one 3-hour laboratory each week. The undergraduate teaching intern's duties consist primarily of assisting the graduate teaching assistant in answering student questions.
- 3) Lead one laboratory session. The undergraduate teaching intern will be assigned one lab during the term for which he/she will prepare the introductory presentation, write a lab quiz, and grade the lab assignments. The graduate teaching assistant and Biology 21X Coordinator will assist the undergraduate teaching intern in this preparation.

The undergraduate teaching interns will be evaluated on participation by the 21X Coordinator with assistance from the assigned graduate teaching assistants.

*Complete this application and return to Dr. Lori Kayes, Biology 21x
Coordinator, Weniger Hall 117 or mailbox in Cordley Hall 3028 or e-mail to
bi21x@science.oregostate.edu.*
